EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech., CSE	Gitam Deemed to be University	9.33	2026
Senior Secondary	Sri Venkateshwara Classes	85	2022
Secondary	Delhi Public School	88	2020

EXPERIENCE

- Rashtriya Ispat Nigam Limited (RINL)** May 2024 – June 2024
Machine Learning Intern – Computer Science Department Onsite
 - Engineered ML models (92% accuracy) to predict CO emissions using 20K+ blast furnace records.
 - Designed a web-based interface to enable shift-wise data entry and real-time emission forecasting.
 - Helping engineers monitor gas levels and improve safety planning through accurate predictions.
- Intel Unnati** May 2025 – July 2025
Image Sharpening (Knowledge Distillation) Remote
 - Developed a lightweight Teacher-Student model to enhance blurred images, improving SSIM to 0.91 for seamless video quality under low-bandwidth conditions.
 - Compressed model by reducing convolution channels (128→64→32), increasing inference speed without degrading image quality.
 - Processed 18K blurred images (14.4K train, 3.6K val) to prepare and validate the sharpening pipeline.

PROJECTS

- AI-Driven Traffic Prediction and Management System – Smart India Hackathon 2024** Aug 2024
Tools: Python, ML models, REST APIs, HTML, JS, CSS 
 - Developed an AI system that predicts traffic disruptions with over 92% accuracy using real-time, weather, and historical incident data.
 - Designed and implemented intelligent route-suggestion logic, reducing estimated congestion by up to 35%.
 - Integrated REST APIs with an interactive frontend to deliver live traffic updates and alert notifications to users.
- AI-Powered Voice Support Agent – Revive Startup** May 2025
Tools: Node.js, VAPI, Gemini API, ElevenLabs, Webhooks
 - Built a voice agent to handle 100+ daily support calls with context-aware conversation flow.
 - Designed and deployed a backend with VAPI and Gemini for natural conversation flow.
 - Integrated ElevenLabs for speech synthesis and Twilio API for phone call management.

SKILLS

- Programming Languages:** C, Python, Java, JavaScript, SQL
- Technologies:** Pandas, Scikit-learn, TensorFlow, OpenCV, Pytorch, Generative AI, API-Handling
- Tools:** Yolo, Git, Github, Flask, MySql, Streamlit, Web-Hooks, Socketing, AWS, AI Agents, Front-End

CERTIFICATIONS

- AWS Academy Graduate**, [AWS Academy Cloud Foundations](#) June, 2025
- AWS Academy Graduate**, [AWS Academy Machine Learning Foundations](#) June, 2025

ACHIEVEMENTS

- Smart India Hackathon – Led team as captain through two consecutive pre-final round nominations
- Ace Award – Received a memento on behalf of WLF Club for being recognized as the Most Collaborative Club

POSITIONS OF RESPONSIBILITY

- Head of Design and Content**, Women Leader's Forum 2024-2025
- Head of Operation**, Github Community 2025-2026
- Directorate of learning and Enablement**, AWS Cloud club 2025-2026
